

# SACRED G MICRO

**Step 1:** Print the Sacred G Micro strip below. Cut Sacred G Micro strip out then fold it in half twice to make it more compact and powerful. The finished size should equal one Sacred G Micro. Trim as much as needed to fit your device but DO NOT cut the actual design.

**Step 2:** Place the folded Sacred G Micro strip inbetween your cell phone battery and battery case (the plate that holds battery in cellphone) OR place the folded micro strip inbetween your cellphone case and the cellphone (this works just as well).

You can also tape the Sacred G Micro to your cellphone, laptop, tv, mp3 player or any other electronic device. Using tape works fine if needed.
